IRRIGATION PRIORITY MEMBERSHIP

Priority service • Predictable seasonal care • Member savings

Priority Members are automatically scheduled ahead of non-members and the general public. Choose the level of irrigation care that best fits your property.

☐ SILVER \$49/month	☐ GOLD \$64/month	☐ GOLD PLUS ★ BEST VALUE ★ \$79/month	☐ PLATINUM PREMIUM CARE \$109 / \$129 / \$149+ monthly
\$588 annually ✓ Spring startup ✓ Winterization ✓ Mid-season inspection ✓ Priority scheduling ✓ 10% off parts ✓ Hydrowise monitoring*	\$768 annually Everything in Silver, plus: ✓ Controller optimization ✓ Seasonal programming ✓ 15% off parts ✓ 5% off labor ✓ Higher priority	\$948 annually Everything in Gold, plus: ✓ 15% off parts & labor ✓ Highest priority ✓ Minor adjustments during mid-season inspection** ✓ Irrigation backflow testing included***	For large estates & commercial ✓ Spring startup ✓ Winterization ✓ Quarterly inspections ✓ Limited programming changes ✓ Hydrowise monitoring* ✓ Priority emergency response ✓ Enhanced system oversight ✓ Irrigation backflow testing included***

** Remote Hydrowise monitoring included where applicable. ** Minor adjustments are limited to work reasonably completed during the scheduled inspection; parts and additional labor are billed separately. *** Backflow testing is included for one irrigation backflow prevention device per covered property when testing is due under applicable requirements. Repairs, replacement parts, additional devices, and water-provider/authority fees are not included unless specifically stated.*

WHAT IS INCLUDED IN THE SEASONAL VALUE?

Every residential membership includes both the \$175 Spring Startup and \$175 Winterization — a combined standard value of \$350 per year. Membership adds proactive system care, priority scheduling, member discounts, and monitoring benefits beyond these two seasonal services.

☐ TRADITIONAL PAY-AS-YOU-GO IRRIGATION SERVICE

I prefer not to enroll in a Priority Membership at this time. I would like Grounds Pros to continue providing irrigation service at the standard rates in effect when service is performed. Non-members are scheduled after Priority Members and service is subject to availability.

SEE PAGE 2 FOR SIMPLE SAVINGS EXAMPLES AND ENROLLMENT

MEMBERSHIP VALUE & SAVINGS EXAMPLES

Current standard residential rates: Spring Startup \$175 • Winterization \$175
Irrigation Service approximately \$225/hour

EXAMPLE 1 — SILVER: YEAR-ROUND VALUE

Traditional seasonal service: \$175 Spring Startup + \$175 Winterization = \$350/year

Silver: \$49 × 12 months = \$588/year

Difference: \$238/year, or about \$19.83/month beyond seasonal service — adding a mid-season inspection, priority scheduling, 10% off parts and Hydrowise monitoring where applicable.

EXAMPLE 2 — GOLD: ENHANCED SYSTEM CARE

Traditional startup + winterization = \$350/year

Gold: \$64 × 12 months = \$768/year

Difference: \$418/year, or about \$34.83/month beyond seasonal service — adding the mid-season inspection, controller optimization, seasonal programming, higher priority, 15% off parts and 5% off labor.

EXAMPLE 3 — GOLD PLUS: REPAIR SAVINGS

Typical two-head repair: Standard service ≈ \$313

Gold Plus with a 15% member discount ≈ \$266

Savings on one typical repair visit ≈ \$47. Two similar repairs could save approximately \$94 — PLUS Gold Plus includes seasonal services, inspection, programming benefits, Hydrowise monitoring where applicable, and highest scheduling priority, plus required irrigation backflow testing when due.

SELECT YOUR SERVICE OPTION

- ☐ Silver — \$49/month ☐ Gold — \$64/month ☐ Gold Plus — \$79/month
☐ Platinum — \$109 / \$129 / \$149+ monthly ☐ Traditional Pay-As-You-Go Service

YOUR GROUNDS - OUR PROS

TheGroundsPros.com • 252-564-3100

Included with Gold Plus & Platinum Memberships

Backflow prevention devices help protect your drinking water and the public water supply by preventing irrigation water, fertilizers and other contaminants from flowing backward into the potable water system.

North Carolina requirements vary based on the property and irrigation system:

- Qualifying residential irrigation systems without chemical injection are generally tested once every three years.
- Commercial, HOA, high-hazard and chemical-feed systems may require annual testing.
- New, repaired, replaced or relocated devices may require immediate testing.

Testing schedules and reporting procedures vary by water provider. Property owners are responsible for ensuring required testing is completed by the applicable deadline.

Grounds Pros can test your irrigation backflow device, document the results and assist with submitting the required report.

GOLD PLUS & PLATINUM MEMBER BENEFIT

Required backflow testing is included for one irrigation backflow prevention device per covered property when testing is due under the applicable testing schedule. Grounds Pros will document the test results and assist with submitting the required report to the appropriate water provider.

Repairs, replacement parts, additional devices, and fees charged directly by the water provider or other authority are not included unless specifically stated.

☐ **Please contact me about adding backflow testing to my irrigation subscription or service agreement.**
